Education

M.Sc. Statistics & Data Science

Oct 2025 – Sep 2027 (expected)

Ludwig-Maximilians-Universität München

Machine Learning track

B.Sc. Statistics & Data Science

Oct 2022 – Jan 2026

Ludwig-Maximilians-Universität München

Grade: 1.1 (German scale; 1 = best)

Minor in Biology (30 ECTS)

Thesis (Grade: 1.0): *Robustness-Driven Feature Attribution in Genomic Deep Learning with Integrated Gradients*

Investigated when adversarial robustness improves interpretation plausibility in genomic CNNs. Supervised by Prof. Dr. Bernd Bischl and Martin Binder.

Publications

Research Experience

The Huttenhower Lab, Harvard T.H. Chan School of Public Health

Jan 2025 – present

Collaborating Student Researcher (external, remote)

Boston, MA, USA

Joint with Philipp Münch. Collaborative research on interpretable genomic deep learning models.

Computational Biology for Infection Research (BIFO), Helmholtz Centre for Infection Research

Oct 2024 – present

Research Assistant

Braunschweig, Germany

Member of the GenomeNet project (PI: Prof. Dr. Alice McHardy; Team lead: Dr. Philipp Münch).

Research focus: interpretable genomic deep learning models; robustness of genomic models; Rashomon effect in genomic data; ground-truth quality in microbial trait data.

Statistical Consulting Unit (StaBLab), LMU Munich
Research Assistant & Statistical Consultant

Apr 2024 – present
Munich, Germany

Provided methodological support to 20+ graduate projects (MSc & PhD) in biology, medicine, and psychology. Contributed to ongoing research projects as statistical consultant. Methodological scope: GAMs, GLMMs, high-dimensional data, missing data, spatial statistics, Bayesian models, clustering, etc.

Teaching Experience

Teaching Assistant

Oct 2023 – Mar 2026

Department of Statistics

LMU Munich, Munich, Bavaria, Germany

Descriptive Statistics & Exploratory Data Analysis (WT 2023/24): tutorials for ~120 students, grading.

Probability Theory & Statistics for Computer Science (ST 2024): grading, technical support.

Descriptive Statistics & Probability Theory (ST 2024): exam-preparation tutor.

Advanced Statistical Practicum (WT 2025/26): supervised and graded two student projects (8 total).

Service & Leadership

Elected Member, Faculty Convention (*Fakultätskonvent*)

Term 2025–2026

Faculty of Mathematics, Informatics and Statistics

LMU Munich

Student Representative

Mar 2025 – present

W2 Professorship Appointment Committees

Department of Statistics, LMU Munich

Student Council Statistics & Data Science

Apr 2023 – present

Elected Member (term 2025–2026); Lead, Teaching Working Group

LMU Munich

Skills

Programming R (advanced) · Python (intermediate) · SAS (intermediate)

Tools Git, SLURM, Linux, $\text{\LaTeX}$, Inkscape

Languages Chinese (native), German (fluent), English (fluent)
